TEN NEGRO MURDERERS

ARE GRANTED A RESPITE FROM THE GALLOWS.

Operations to be Re-Commenced in the Anaconda Copper Mine—Another California Stage Robbery—Applications for Sugar Bounties at Washington.

ST. LOUIS, Oct. 23.—A special from Columbia, S. C., says the execution of ten negroes which was to have taken place to-day has been postponed, owing to the granting of a stay of proceedings pending an appeal to the supreme court.

The crime for which the men were to suffer the death penalty was the murder of Thornton Nance (colored) on the night of August 5, 1891. It occurred near the negro church in the little town of Piedmont. On the night in question service was held at Piedmont, and Edmund Nance, a well respected negro, with his wife and four sons were of the congregation. When service was over most of the worshippers dispersed. The Nance family had received intelligence during the progress of the meeting that their lives were in peril. When they started for home they saw hanging about the church Jim Young, Allen Young, Monroe Young, Henderson Young, John Williams, Perry Adams, Lige Atkinson, Tom Atkinson, John Atkinson and Jack Williams, all colored. The Nance family at church consisted of the father, Edmund, his wife and three sons, John, Thornton and Samuel. It seems that John Nance had made indecent proposals in writing to John Atkinson's wife, and her husband, brothers and friends were thirsting for vengeance. Finally most of the Atkinson crowd left, and the old man, with a light wood torch, followed by his wife and sons, set out for home. Before going many steps the crouching figures at the side of the road passed them at a rapid gait. A hundred yards further, where the road is worn level and where the shrubbery is thick, John Nance was held up by two men. In another moment the road was filled with armed negroes. Shot after shot was fired and for two minutes the flash of pistols lent brightness to old Edmond's torch. Then the murderers fled, leaving Thornton Nance and Samuel Nance dangerously shot through the lungs. The assassins were arrested and identified. The defense made a strong effort to prove an alibi, but it was unsuccessful.

Anaconda Copper Mines.

CHICAGO, Oct. 22.—A special despatch from Butte City, Mont., says: "Within the next ten days the famous Anaconda copper mine will be in full blast. Last spring the mine shut down. Two reasons are given for this. One was that Haggin, believing he owned and controlled the bulk of the copper in the world, closed down in order to corner it. The other reason was that the railroad which runs from Aanconda over to Butte, a distance of 25 miles, had concluded to charge Haggin its own rate for conveying the ore from the mine at Butte to Anaconda and returning the product ready for market from Anaconda to Butte. This Haggin would not consent to and he closed the mine. From what is considered a pretty reliable source, information has been received that within the next ten days 2000 men will be put to work in the construction of a new line from Butte city to the smelters. This done, the new road will be built from Boise City, the intention being to extend it ultimately to the Pacific coast.

NEW YORK, Oct. 23.—J. B. Haggin, president of the Anaconda Mining Co., confirms the report sent out from Butte that the Anaconda copper mine, the most productive copper property in the world, is to be re-opened. Mr. Haggin said yesterday to a Tribune reporter: "The mine was closed some ten months ago because of differnce between our company and the managers of the Montana Union railway, which has the only line between Butte and Anaconda, and is owned entirely by the Northern Pacific and Union Pacific. At that time they demanded a rate for the transportation of our ore which made it impossible for us to operate the mine profitably. This matter of rates has been satisfactorily arranged, and we will resume operations at once, and we hope to be producing copper within 15 days." The re-opening of the Anaconda mine will greatly increase the copper product of the country. A year ago it was producing nearly 50,000 tons a year. A new railroad from Butte City to the smelters, and extending west to the Pacific coast, has been projected, but now that satisfactory arrangements have been made with the Montana Union, this project, Mr. Haggin says, will be abandoned for the present.

An Insane Traveller.

COLUMBUS, Ohio, Oct. 23.—Martin Rods, a German, en route with his wife and baby from California to Pennsylvania, leaped from a Miami express train going at the rate of 40 miles an hour, when the train was near Charleston last night. He placed the baby in his wife's arms, and opening a window, jumped out into the darkness. The train was stopped and backed to the place where the affair occurred, but no trace of the man could be found. He was seen to alight on his feet and then run away. The man was evidently insane. The passengers made up a purse for the woman, who is still here. It was reported here this afternoon that his body had been found hanging near the railroad track. He had hanged himself with a suspender.

Sugar Bounties at Washington.

WASHINGTON, Oct. 23.—Commissioner Mason to-day received the first application for a bounty on cane sugar manufactured under the new tariff law. It came from Jas. W. Dougherty & Co., Louisiana. The amount of sugar manufactured upon which bounty is asked, is 65,963 pounds, and the bounty is $1818. So far applications for bounty on 319,427 pounds of sugar of all kinds have been received. The bounty on this amounts to about $6000, but up to date no bounty has been paid by the Treasury Department. The Internal Revenue Bureau is advised that applications for bounty will be filed in large numbers within the next two weeks from cane sugar producers.

ROMANCE OF ROUMANIA.

The Crown Prince Ferdinand and his Sweetheart, Mlle. Vacaresco.

The charms of the lady of the picture, Mlle. Vacaresco, maid of honor to the Queen of Roumania, made a victim of

the Crown Prince Ferdinand, who avowed his love, his mother sanctioning his avowal. Opposed to the match was the prudent King, who was supported on all hands by the Roumanian people. They could not afford that their future king should wed outside the regal circle. Accordingly, Mlle. Vacaresco was removed from court, as it appeared that Ferdinand would never be made king if he persisted in his intention to marry his love. To make even this sacrifice the Crown Prince was willing, and wrote Mlle. Vacaresco that he was ready to forego the royal succession rather than to lose her. The young lady, who seems to be a cooler-headed person than the Prince, wrote him that it would be better for him to wait and see what time would do in their behalf. So the matter stands, and as "everybody loves a lover," everybody is hoping that the Crown Prince Ferdinand of Roumania will become King Ferdinand, and that his throne will be shared by the lady of his choice.

A DIFFERENT STORY.

BERLIN, Oct. 22.—The North German Gazette says that Prince Ferdinand, heir to the Roumanian throne, will be betrothed to Princess Marie, eldest daughter of the Duke of Edinburgh.

Another Stage Robbery.

REDDING, Cala., Oct. 23.—The Redding and Alturas stage was robbed again last night at 10 o'clock about the same place as a few days ago, by two masked men. Wells, Fargo & Co.'s box and the mail were taken and the passengers were also made to give up their spare cash. One lady on board was also asked for her purse, but having it concealed in her clothing they failed to get it. The loss is unknown.

NANAIMO NEWS.

Foundation Stone Laid—Liquor Cases—Naming the Streets.

NANAIMO, Oct. 23.—The ceremony of laying the foundation stone for St. Matthew's church at Wellington was performed yesterday afternoon by the Bishop of Columbia, assisted by the Rev. J. W. Flinton and several of the clergy of the diocese. In consequence of the unfavorable weather there were not so many spectators as there would otherwise have been. A concert was given in aid of the building fund last evening and the attendance was unusually large. A neat and lengthy programme was gone through and a pleasant time enjoyed.

POLICE COURT.

A large number of cases were on the docket in the police court yesterday, but were quickly disposed of by Mr. J. P. Planta, S.M., and Mayor Hilbert. The cases were principally liquor cases, and in each the usual fine was imposed. This evil appears of late to be greatly on the increase in Nanaimo, but the zeal of the police is equal to the occasion, and the culprits are thus brought before the court.

AT LAST.

The people of Nanaimo are at last to see their wish carried out in respect to the naming of streets and numbering of houses. Mr. A. Thrall has received permission from the council to place the names of the various streets on the corners and number the houses at the expense of the residents. It is not, however, compulsory but it is presumed it will meet with the entire approval of the inhabitants.

THE TURKISH BATH.

The performance of the Turkish Bath Company in the Opera house last evening was largely attended and was more appreciated here than any previous production has been during the present year. The music was rich, and the laughable dialogues keep the audience in a happy mood. Those who go to see this company will find their dollars well spent, and will not regret it.

LITTLE HAPPENINGS.

Work was resumed in the New Vancouver Coal Co.'s mines yesterday, and promises to continue for some time.

A footrace is to take place between J. Sluggett and F. Day for $500 a side.

The up freight train from Victoria yesterday ran over a heifer on the Nanaimo trestle, and cut it to pieces.

Mr. Jenkins, of Victoria, Superintendent of Juvenile Templars, instituted a new lodge at Wellington yesterday, and a grand concert was given in honor of the event last evening.

THE IRISH TENANTRY.

JOHN DILLON'S ADVICE CAUSES A SENSATION.

Grand Master Austin's Resignation—China Looking for English Officers—Pauperism in Berlin—Gordon-Cumming and the Prince of Wales' Family.

LONDON, Oct. 23.—John Dillon's advice to the Irish farmers to ignore the legislation enacted by Parliament for the purpose of enabling them to become owners has caused a decided sensation among English Liberals. The Tories are quoting Dillon's utterances as showing that the aim of the home rule movement is really confiscation of the land, and that the most generous measure of relief and assistance to the country would not be accepted as sufficent by the agitators. Reports from all parts of Ireland show that the tenants are very generally claiming the benefit of the Land Purchase Act, and it is thought that fact may have alarmed Dillon.

THE ORANGE GRAND MASTER'S RESIGNATION.

LONDON, Oct. 23.—The abusive communication which led to the resignation of Grand Master Austin, of the Orange lodges in England, are attributed to the unwillingness of the late Grand Master to turn the Orange Society into what would virtually be a military organization. It is known that in Ireland the Orange lodges are drilled as military bodies, and form a secret militia, with the partly concealed purpose of making armed resistance to Irish Home Rule should it be established. Austin was not in favor of extending this system to England, but advocated maintaining the order as a purely benevolent and beneficiary society. In this he differed from the agressive element, which is now in control, and life was made a burden to him. Austin is not advertising his grievance, but these facts are given on excellent authority.

CHINA WANTS ENGLISH OFFICTRS.

SHANGHAI, Oct. 23.—It is reported that the Chinese Government, in view of the threatening condition of its foreign relations, especially with Russia, is anxious to procure English officers of experience for subordinate commands. This, it is believed, will be difficult, owing to the bad treatment accorded to Capt. Lang, who was bringing the navy to considerable efficiency, and was driven into resigning. The Chinese Government then declared that it would never again entrust authority to any foreigner, and it is hard to find competent foreign naval officers willing to serve under the Chinese.

DISTURBANCE FEARED.

BERLIN, Oct. 23.—The arming of the police with carbines, which virtually converts them into a regular soldiery, is due to the great apprehension felt by the authorities that the winter will be attended by great suffering among the poor and perhaps by consequent disturbances. Berlin is thronged with strangers seeking employment. These include large numbers of Russian and Polish Jews, the former a decidedly superior class to the latter, and also Germans and others who have joined the hegira from Russia. There is not work enough for the resident population, and numbers of the newcomers are strung about the streets begging. The farm colonies are thronged with destitute persons sent there by the authorities, and yet there seems to be no diminution of pauperism.

GORDON-CUMMING STRIKES BACK.

LONDON, Oct. 23.—The protest of Sir William Gordon-Cumming against the appropriation of money for the entertainment of the Duke and Duchess of Fife at Elgin, has caused a lively row in the Scotch burgh, where the head of the Cumming family rather out rivals Queen Victoria in popular regard. Sir William is a considerable property owner in Elgin, and can therefore enforce his protest by legal measures, if necessary, while the fact that neither the Duke nor Duchess is of the Queen's immediate family takes away the excuse of loyalty for the proposed expenditure. The Cummings, like other Scottish chieftans, are noted for the tenacity of their hatred and devotion, and it is believed that the Prince of Wales will not be altogether without anxiety over this evidence of the bitterness of his former favorite.

THE SPANISH FLOODS.

MADRID, Oct. 23.—Vast tracts of land south of the Sierra Nevada have been submerged by floods. The Cadlar River and its tributaries have become so swollen there by incessant rains that they have overflowed the plains of Albunot and Bruchulez. The result is that the crops in these districts have been destroyed and a number of persons drowned. Terrible distress exists among the inhabitants of the flooded districts. The country about Mansera, Province of Barcelona, has been swept by a hurricane.

DR. CARPENTER'S DEATH.

LONDON, Oct. 23.—The death of Dr. Philip Carpenter, D.D., master of science at Eton College, which occurred yesterday was the result of suicide with chloroform.

THE CORK REECTION.

LONDON, Oct. 23.—The Speaker of the House of Commons gave notice today that the warrant for the Cork election to fill the vacancy created by the death of Charles Stewart Parnell, will issue forthwith. John E. Redmond, lately member of Parliament for the north division of Wexford, has received the Chiltern Hundreds, being thereby enabled to contest the Cork constituency.

THE ARCHBISHOP CALUMNIATED.

DUBLIN, Oct. 23.—Archbishop Walsh repudiates the interview said to have been held shortly after the death of Parnell, and in which he is quoted as referring to the dead leader in terms so disparaging that they aroused indignant comments in many quarters, even where sympathy for the dead man was not expected. The Archbishop also denounces the attacks upon him by an American paper on October 9th, calling the statements made a "sensational calumny." He adds: "They attribute the atrocious and unchristian sentiment that charity should not find a place at the open grave of Mr. Parnell. I feel bound in my own defense and in that of the dignity of my office to ascertain whether American law permits bringing to punishment the author and publisher of the libel."

AN IRISH PARLIAMENT.

DUBLIN, Oct. 13.—The Irish Protestant Home Rule Association has issued a manifesto declaring it will be satisfied with nothing short of the establishment of an Irish Parliament in Dublin.

A NARROW ESCAPE.

PARIS, Oct. 23.—At Brest to-day the longboat belonging to the French training ship Austerlitz, a d manned by 12 boys and two quartermasters of the vessel, capsized in a dangerous spot at the entrance of the harbor It was blowing half a gale at the time. It was thought they had been drowned but they were rescued, being found clinging to the keel of the overturned craft.

MICHAEL DAVITT ARRIVES.

QUEENSTOWN, Oct. 23.—The steamer Wisconsin, with Michael Davitt aboard, has arrived here from New York. A representative of the United Press this morning interviewed Mr. Davitt with regard to the assertions made by John Devoy last Sunday in an American interview. Davitt carefully read the cable report of the interview, then promptly and energetically denounced the statements therein contained as a mass of lies. "Mr. Parnell," said Davitt "never had any compact of any kind with the revolutionists." Continuing, Davitt said: "Devoy's sayings are valueless. He has no following, and is only booming himself."

Davitt was enthusiastically received and was presented with an address of welcome, to which he replied.

MUSIC AND THE DRAMA.

The Turkish Bath To-Night—Goodyear's Minstrels Gone Away—Keene Coming.

Tickets for the Charity ball to be held at Assembly Hall next Thursday evening can be obtained from H. M. Yates, secretary of the Jubilee Hospital, who is to be found at J. J. Austin's office, or from the ladies committee.

Goodyear's Minstrels closed their engagement last evening to a fairly large house and said good-bye to Victoria for the present. Their visit here this time has been a successful one for them and a pleasurable one for Victorians.

"A TURKISH BATH."

An exchange, speaking of a recent performance of this musical comedy, says: "Of course Marie Heath is the favorite of the audience, and no one can see her and not be pleased with her impersonation of the mischievous little girl, and her rendering of the seriocomic songs, 'Won't You Come Out and Play' and 'Listen to My Tale of Woe.' These songs were received with applause that fairly shook the house. She has no superior in the juvenile line and is sure to make a 'hit wherever she appears.'"

UNCLE SAM IS ANGRY.

There May Be Armed Encounters Between Americans and Chilians.

NEW YORK, Oct. 22.—A special to the Recorder from Washington says interesting international difficulties are likely to ensue as a result of the recent cowardly attack on American men-of-waremen in the city of Valparaiso. Captain Schley, of the United States steamer Baltimore, has cabled the Navy Department the details of the affair, from which it appears that the attack was both cowardly and uncalled-for. Secretary Tracy laid the report before the President, and it will be considered at the cabinet meeting to-day. The opinion is prevalent that Minister Egan will be instructed to demand immediate reparation and indemnity from the Chilian Government. The Recorder correspondent reports the President as having said: "I mean to have no more of this business from any nation, and the demand upon Chili must be immediate and peremptory." Captain Schley informed Secretary Tracy in his report that it has become impossible for American officers to go ashore without being insulted, and that hereafter they mean to go armed and to resent insults in the proper way. "We are losing our respect by permitting these things," says Schley, "and the younger officers are wild with rage and cannot be much longer restrained." "I do not want them to be further restrained," said Secretary Tracy to one of the commodores, "and I have told Schley so." Therefore any day may bring news of a serious emeute between the Americans and the Chilian mob, instigated and secretly encouraged, it is believed here, by persons high in authority there.

The Contest in Cork.

DUBLIN, Oct. 22.—In consequence of the vigorous and aggressive disposition displayed by the Parnellites, in having already placed John E. Redmond in the field to contest the seat in the House of Commons for Cork, made vacant by the death of Mr. Parnell, the anti-Parnellites have determined to nominate tomorrow a candidate to oppose Mr. Redmond, instead of awaiting the meeting of the convention which is set for Tuesday of next week. The anti-Parnellites are greatly chagrined over the delay of Mr. Davitt in arriving upon the scene of action; the more because they are extremely anxious to have the immediate benefit of his advices in the extremely exciting campaign, which is already on, so far as their opponents are concerned. The Tories have selected Capt. Sarsfield to make the fight in Parnell's stronghold in their interest, Alderman Scott retiring in favor of the captain. This action does not, however, meet with the unanimous approval of the Conservative leaders, most of whom seriously question the wisdom of their contesting Cork at this time.

LONDON, Oct. 22.—John Dillon said at the Wexford Convention to-day that John Redmond stood no chance of being elected for Cork, unless the Tories should withdraw their candidate and support Redmond. He also advised the farmers to ignore both the Ashbourne Act and the Balfour Land Purchase Act, in the settlement of the land question. Mr. Dillon said that when Irishmen had obtained control of the country the farmers would get much better terms from the landlords than was possible under English rule.

Sir Charles Dilke.

LONDON, Oct. 22.—Sir Charles Dilke, being now a standing candidate for Parliament and seeking restoration to political life, arouses more than ever the hostility of Noncomformist Liberals, who insist that his case is worse than Parnell's. In view of the bitter state of feeling, a London clergyman of eminence has taken up the work of investigation. He is engaged in sifting the entire evidence produced at the trial in order to arrive at an impartial decision, which he will publish in pamphlet form. To probe the charges to the bottom, he seeks interviews with all persons whom he can possibly reach connected with the course of the trial, including Sir Charles Dilke himself. The appearance of this pamphlet is looked for with great interest.

The Russian Famine.

ST. PETERSBURG, Oct. 22.—The famine has extended to Siberia. The governor has compiled a report showing that in the district of Kokthecstosh and Petrapawlosk what food supplies the inhabitants possessed have been entirely exhausted, and appeals are made to public charity. Owing to the difficulty of transportation in winter efforts at relief seem almost hopeless. Supplies from Caucasia are improving in quantity, and it is hoped they will avail to stave off the worst effects of the famine. Advices from the interior of the empire are continually of worse import. People are commencing to riot in Samao, Saratoff and Veronetz.

BUCHAREST, Oct. 22.—Russia is withdrawing her troops from Bessarabia on account of the wretched accommodation there and the epidemic of typhus.

The Pope and the Government.

ROME, Oct. 22.—Signor Rudini had a long interview with the king yesterday and subsequently a cabinet council was held. It is believed that the Pope's proposition to leave Rome is causing the government great uneasiness, and that the king and the premier have been discussing it. The government, however, has expressed no willingness to make use of the slightest concession in the direction of augmenting the temporal jurisdiction of the Pope beyond the vatican bounds, and King Humbert is known to be decidedly opposed to any suggestion of weakening the authority of the kingdom of Italy in Rome. A crisis in the papal question is thought to be at hand.

Chamberlain and Gladstone.

LONDON, Oct. 22.—Joseph Chamberlain, delivering a political speech in Sunderland, said: "I do not believe the coming general election will give Gladstone a majority of the members of Parliament. I almost wish they might give him a majority in order that the country might again see what an awful mess he would make of our affairs in six months. Gladstone's government would involve us in dangerous foreign complications, plunge Ireland back into anarchy and let loose petty jealousies that have been repressed while that party was in opposition."

Damage by the Storm.

LONDON, Oct. 22.—The most terrible accounts continue to be received from all parts of the British and Irish coasts of the damage done by the storm. Numerous wrecks, with loss of lives in several instances, are reported, and traffic by sea is almost at a standstill. The coasting steamers everywhere are either staying in harbor or seeking the first refuge that offers. Owing to the storm at sea, the railways are overburdened with goods traffic. The inland damage is also very great, and several fine estates have suffered incalculable injury.

A Liberal Comic Paper.

LONDON, Oct. 22.—Geo. Newnes, Liberal member of parliament for Newmarket, is about to start a rival to Punch. It will be published at a lower price, will be illustrated by the best artists in the country, and will support the Liberal party, as contra-distinguished from the Conservative tendency of Punch, Mr. Newnes being a strong supporter of Gladstone.

Railway Smash in France.

PARIS, Oct. 22.—While a train was running at full speed near Lyons today, the roadbed suddenly collapsed, owing to the fact that it had been undermined by floods, and the engine and cars were hurled from the road and tumbled down an embankment. The engineer and fireman were killed and a number of passengers badly injured.

Floods in Britain.

LONDON, Oct. 22.—Dispatches from every part of Great Britain are arriving to-day, all telling of vastly increasing floods. It is feared the damage consequent upon the submerging of property will aggregate a large sum. For a distance of 30 miles the Thames has overflown its banks.

Parnell Died Intestate.

LONDON, Oct. 22.—It is announced that Parnell made a will in favor of Mrs. O'Shea before he married her, but that the marriage annulled the will, and therefore he died intestate. Mrs. Parnell is entitled to half the personal and one-third of the real estate left by Parnell.

The Gale Continues.

LONDON, Oct. 22—A terrible gale, accompanied by tremendous seas, is prevailing at Angles, on the Irish sea. A Norwegian brig was driven ashore at that place and wrecked. The crew after a desperate struggle was rescued by the life-saving crew.

Troops Shoot Prisoners.

LISBON, Oct. 22.—A revolt broke out in one of the prisons in this city yesterday. Troops were called out to quell the revolt. The soldiers fired at the prisoners through the windows, and several were wounded.

Missionaries Threatened.

SHANGHAI, Oct. 22.—The Kalhut, a secret society, has caused the walls of Woo Chang, a large city in the province of Hoo Ree, on the Yang-Tse-Kiang, to be placarded with posters announcing that all missionaries will shortly be exterminated.

La Grippe in Austria.

VIENNA, Oct. 22.—The influenza is raging in Galica. Four thousand cases are reported from Lomberg alone.

Bristol and the Duke of Edinburgh.

LONDON, Oct. 22.—The agitation is growing in Bristol in the protest against conferring the freedom of the city on the Duke of Edinburgh. Newspapers there and elsewhere are devoting editorials to the subject.

The Presbyterian Trouble.

BALTIMORE, Md., Oct. 22.—By a vote of 75 to 25 the Presbyterian Synod of Baltimore has adopted a resolution calling on the General Assembly to entirely sever all relations between it and the Union Theological seminary of New York unless the questions between the two are settled before the next meeting of the General Assembly.

Prof. W. E. Bergman, the well known electrician, late of New York, has arrived in this city and is at rooms 17, 18 and 19, Humphrey's Block, Yates street. Those who have visited him state that his treatment is very successful.

Quite a sensation has been caused by the discovery that the old burying ground lying a quarter of a mile north of the mouth of Pine River, Bruce county, has been robbed lately of most of the remains of the bodies interred there. It is likely that the bones are taken for the purpose of fastening together again for scientific purposes, under the connivance of medical students or physicians. Two parties visited the burying ground for the purpose of having the remains of a relative exhumed and taken to Kincardine cemetery, when, to their amazement, they found that the grave had been robbed, and nothing but some hair and the boards of the coffin remained to show where the body had been. Other known graves were found to have been dug over and robbed.

An Oregon Leper.

EUGENE, Or., Oct. 22.—Dr. D. A. Paine arrived last evening from McKenzie precinct, about 50 miles east of Eugene, where he had been for the purpose of examining into the condition of J. H. Babcock, said to be a leper. After a thorough examination it was determined beyond doubt that he was afflicted with the disease. Sores have broken out and are now running. Dr. Paine made arrangements for his complete isolation, Babcock agreeing hereafter to stay on his premises, permitting no one to enter his house, which is located about one-half mile north of McKenzie bridge, in the Cascade mountains. Arrangements were made with A. S. Powers to procure food and leave it at an accessible place for the afflicted Babcock. His father and mother were both citizens of the United States, although he was born at Honolulu. His mother came to the islands when a child with United States Minister Gregg and family, and was raised by them. His father is a pilot at Honolulu. The disease made its appearance on him about four years ago in Honolulu, and he was examined by the government board of physicians, who pronounced him a suspect. He then left that place and came to Astoria, staying there for a time, and coming to this section of country about two years ago. Babcock is 24 years old.

With a Bullet in His Brain.

SAN FRANCISCO, Oct. 21.—An inquest into the death of Henry B. Harmon, who lived six days with a bullet in his brain, was held to-day. The man shot himself through the mouth, the bullet piercing his palate and burying itself in his brain. With this hideous wound the suicide wandered out into the streets to die and staggered around half a day in a comatose condition, when he was arrested and locked up on charges of drunkenness and carrying a concealed weapon. This was Wednesday, the 14th inst., and he spent a night in a cell without medical attention. Thursday and Friday he lay strapped down in the city prison, where he was regarded as a a saturated inebriate. Saturday he was taken to the receiving hospital, where he died Tuesday morning. An autopsy was performed, and it was discovered for the first time that drunkenness was not the cause of his death, and his apparent inebriety was due to the bullet in his brain. The jury had no difficulty in ascertaining the cause of death, and returned a verdict that the deceased came to his death from the effects of a gun-shot wound inflicted by himself with suicidal intent while temporary insane.

Utes Giving Trouble.

SYDNEY, Colo., Oct. 22.—Word was received here last night that five companies of United States infantry and cavalry from Fort Russell were making a forced march to the scene of the Ute outbreak of some years ago, to protect the rights of settlers against the encroachment of the savages. At the time of the former trouble the Indians turned their ponies into the pastures of settlers and committed many other depredations. This year the settlers are determined that the Indians should not hunt off the reservation, and have banded themselves together to keep the Utes within bounds. It seems that the Indians have now started to leave the reservation on another hunting expedition and it is believed there may be conflicts with the whites. To prevent this the five companies have been despatched to the scene.

Fought off the Sheriff.

JOHNSTOWN, Penn., Oct. 22.—The Childs and Lehman factional dispute over the right to operate a sawmill on a tract of timber land has resulted in what for a time threatened to be a serious riot. The sheriff of Cambria county, who was engaged by Childs, proceeded to the disputed property yesterday, and ordered his deputies to take possession of the mill. He was met by 40 farmers armed with revolvers, guns, pitchforks and every conceivable weapon. The first man to cross the line was knocked senseless, and the order then given to the farmers to fire. Before this move, however, the sheriff's little party retreated, and the farmers are now in possession. The Childs faction will now have recourse to the law. In the meantime the farmers will guard the property and threaten bloodshed if interfered with.

California's Wool Clip.

SAN FRANCISCO, Oct. 22.—E. F. Lee, of Boston, an extensive purchaser of California wools, is in the city. He has been travelling over the State for five or six months. The wool clip is now about in. There is some to come from Humboldt and Mendocino counties, but, said Mr. Lee, it is nearly all in and the product for the year may be approximately estimated. I think it will reach about 38,000,000 pounds. There is a good deal of Oregon wool that comes here, but that's extra. The wool crop of California about 1865 reached to between 51,000,000 and 52,000,000 pounds, if I remember correctly, but since then many of the ranches have been utilized for raising fruit and agricultural products.

A QUARTER OF A CENTURY AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning painful sensation while urinating, and all afflictions of the kidney or urinary organs of either sex.

I FEEL BUOYANT

"Am happy to say that results so far are as satisfactory as I could expect, indeed much more so than I did expect. I am enjoying excellent health, appetite good, sleep sweet and refreshing, gaining flesh; am less nervous than I have been for years; feel bright and buoyant * * * It is almost miraculous, making a young man out of one of seventy, for that is just what your treatment is doing for me. I wish the community to know in as modest a way as we can get at it."

The above is No. 54 in a collection of over 2,000 similar letters on file in our office. We have a

THE VICTORIA CENSUS.

Vancouver papers continue to harp on the recent civic census of Victoria as though they had been done an injury through it. Their display of insane jealousy is not at all edifying to the people of their own city, while to outsiders it must appear exceedingly foolish. When this city had good ground to believe that it was placed in a false position by the Dominion census it was obliged to set itself right, without regard to any outside sentiment. It is an unworthy feeling of jealousy that prompts our Vancouver contemporaries, and they should strive against it. They are wasting time and effort in attacking the *bona fides* of our census, for it was taken in such a way as to leave no ground for an attack. Those engaged in the work were capable and reliable men, and they were sworn to do it honestly and accurately. We believe all impartial people will admit that they respected their oaths, and that they were fully equal to the task entrusted to them. There was not the slightest inducement for them to exaggerate or to falsify, but on the contrary they had every incentive to make their enumeration as accurate as possible. Moreover, the result of their work is open to examination by any person so inclined; the names have been written out in alphabetical order and the lists are available for inspection, so that if there was any attempt at "stuffing" it can be detected and exposed. We feel certain there was no such attempt, and if the accuracy of the list can be impugned at all it is only on account of a few names being duplicated. These duplications, however, are said to be very few, and there are omissions more than sufficient to counterbalance them. The list, as we have said, can be inspected by any critic, and a copy of it is to be sent to each of the Governments, Dominion and Provincial, so there is every opportunity for the detection of errors. There is every reason to believe that the civic census is correct and the Dominion census wrong, a fact which simply justifies the city's action in the premises.

BAIE DES CHALEURS.

Premier Mercier seems certain to come very badly out of the Baie des Chaleurs investigation. C. N. Armstrong has repeated to the commission the statements which he made before the investigating committee of the Senate, making the case even worse for the Quebec Government. He has stated plainly that his dealings with Pacaud were suggested by the fact that the latter was acting as an agent of the Government in negotiations with other parties who wished to secure the railway and the subsidy. His final bargain with Pacaud was to accept $173,000 in satisfaction of his claim, of which $100,000 was handed back to Pacaud and the rest was kept by Armstrong. It also came out in the course of Armstrong's evidence that Pacaud had said he must account to the Premier for the $100,000. Objections were raised by Pacaud's counsel to inquiry as to the final disposition of this money, but these were overruled, and Pacaud himself seems to have given information on this point. He is reported as stating that $40,000 was handed to Mr. Robidoux and Mr. Langelier, two of the ministers, and that he himself kept $50,000. What became of the other $10,000 has not been explained so far, but in all likelihood it was used for some wrong purpose. The case is one of infamous boodling, in which a poor defence is offered. It is not a good excuse to say that the money was used for election purposes and not kept for personal gain. That is the defence offered by Sir Hector Langevin and Sir John Macdonald for their offences, and the practice has also been strongly upheld by Premier Abbott; but all that does not justify it. To steal money from the public and spend it for campaign purposes is quite as great a crime as putting it in the thief's pocket. When Mercier adopted the tactics of the Ottawa gang he went very far wrong, and his conduct cannot be too severely condemned. Nevertheless, it is not edifying to see Tory journals shouting themselves hoarse over Mercier's wrongdoing while they as vigorously defend Chapleau and Langevin, who have been sinning in the same way for many years.

EDITORIAL NOTES.

The Northwest is in the midst of a lively election campaign. It seems that there are over forty candidates for seats in the new Territorial Legislature to be elected under the provisions of the Act passed at the recent session of Parliament. As there are only twenty-six seats, it follows that there will be a goodly number of disappointed aspirants. The issues appear to be nearly altogether local. November 7 is the day of polling.

It is not strange that many people, disgusted with the ways of men who seek to retain in their hands the reins of Government have described politics as "a dirty pool." And, can we marvel at it? Witness the respectable Tory press of this Province and this Dominion defending to the utmost of their ability a brace of conscienceless pirates like Langevin and Chapleau, and then ask whether politics in such cases has been degenerating or otherwise.

The Globe the other day plainly stated that during the recent session Mr. Chapleau offered to desert to the Liberal side and take his following with him, the condition, of course, being that he should get the office he wanted. It was further stated that the Liberals had no use for Mr. Chapleau and would not listen to his proposals. Now it is reported that Chapleau threatens an action for criminal libel against the Globe on account of these statements. It is to be hoped that he will go on with it.

Referring to the Victoria census the Vancouver News-Advertiser says:—"But the Government and the people have to deal with facts, not with sentimental, much less selfish, objections. Both for Dominion and Provincial purposes, the returns of the Dominion Census of 1891 will have to be accepted as the standard until the next decennial period arrives."

That is just where the Vancouver kick comes in. Victoria will not accept the census for "Dominion or Provincial purposes."

"RATEPAYER'S" REPLY.

To the Editor.—"Ratepayer" has another epistolary production in this morning's paper, in which he tries to be either sarcastic or complimentary to me. His attempt in this direction is characterized by as much elephantine gracefulness as his previous letters were full of unreasonableness. "Ratepayer" is hiding his light under a bushel. In any case I have no argument with any man without a name.

OSCAR C. BASS.

THE SCHOOL QUESTION.

To the Editor:—It remains to be seen how the Government will treat a finding unanimously agreed to on Tuesday last by school trustees of its own appointment. We have on record the fact that on two occasions at least it ignored the findings of school trustee boards. On Dec. 4th, 1889, it took away a teacher's certificate for neglect to obey rules on the word of its superintendent of Education, though it had two official communications from the school trustees stating that they had investigated and found out that the teacher was conscientiously discharging his duty. On June 2nd, 1890, the Government got notice that a teacher was dismissed by the school trustees for repeated acts of drunkenness, yet he was allowed to retain his certificate.

J. N. MUIR.

WHO WILL PAY THE PIPER?

To the Editor:—The old reply to this query is, "those who dance." The tune of $30,000 is sweet. Let us understand this at once. There is no law to compel the corporation to pay for a commodity forced on the citizens which is not required, and if the civic investigation takes place the public will see that the by-laws afford full justification for the expenditures appearing under the respective items. Doubtless the Provincial Government will be slow to pay this modest amount, and looking over the names I am induced to think the petitioners are not of that style of mirth to dance to the sound of such expensive music. So far we have full confidence in the Mayor and Aldermen, and our officials are men of honor and principle. Why then cast suspicion where there is not the smallest proof, to please those who will not be pleased, although they have grown rich by chance?

If this step is taken, what next? Perhaps the removal of our Mayor and Corporation to make room for one paid Provincial Commissioner with a numberless staff of subordinates. Is this expedient? Strange things have come to pass, and there are materials in Victoria to make a reformation not yet imagined if the ball is set rolling.

Men of Victoria, gather together and openly express your confidence in those you elected to office. They have devoted time and thought to your work and interests. You are under obligation to them, and you know as well as I do this whining and howling is needless. Our rates are low—too low to meet all the wants of a growing young city calling for new streets, sidewalks, lights and water, which, in plain English, mean more money. RATEPAYER.

A COMPLAINT FROM CHILCOTIN.

To the Editor:—Please give space in your valuable paper for a few lines in reference to the expenditures of moneys appropriated to roads in Chilcotin, Cariboo District. According to appropriations there was $4000 to be spent on the south side of Chilcotin River to open a road for the benefit of settlers, petitioning for an outlet to the Fraser River at the mouth of Gasper or Chilanko Creeks to connect with the road direct to Clinton, but so far there is no prospect of any of said $4000 being spent or appropriated, nor is there any sign of any work being done to make a road between one settler and another. As it is at present we are forced to use an old Indian trail for communication between one settler and another. Instead of spending some money to give the people accommodation, the Superintendent of Roads in Cariboo District has set a gang of men to work under the direction of one Shaw, who has pretended to work on Chimney Creek hill down to the Fraser River to the amount of $500. Instead of improving and making a road passable, he has practically made a failure. We consider the public ought to be informed as to how things are conducted in this part of the Province. After the Government has appropriated money for the benefit of a certain section, for one man to have full control of the expenditure without coming to see how things go on ought to be stopped. Mr. H. Lawrence, Superintendent of Roads for Cariboo District, may be a competent official, but we consider he has miserably failed in his duty to this part of his district. If he has too much to attend to, why not appoint a commission of say three settlers who are interested in this part of the district to see that the moneys appropriated are expended where most needed. There are eight settlers on the south side of the river, and so far there has not been one dollar spent to make a road or trail, and as things are at present it is almost impossible to drive a pack horse over the trail, whereas a six or seven hundred dollars was spent it would make a passable wagon road for ten miles. Hoping these few lines will engage the attention of the powers that be and that we shall receive justice, I am A SETTLER.

A new lodge of Loyal Orangemen was instituted last evening by District Master J. J. Walsh. It is to be known as No. 1610 and the officers elected are: Thos. Aske, W. M.; James Blackwood, D. M.; Wm. Duncan, Rec Sec.; E. Sherritt, Treas.; Dr. Leitch, Chaplain; Jno. Grimason, Director of Ceremonies; Jno. Wallace, Lecturer; Thos. Mathews, first committee-man.

City Police Court.

The police court proceedings this morning were a series of adjournments. The woman, Mary Brandon, charged with keeping a disorderly house was represented by council. His Honor will give judgment to-morrow. There were two charges against Chinamen, and one assault case, all of which were adjourned.

The Cafe Royal.

The store in the Turner block at the cor. of Douglas and View Sts. has been handsomely fitted up by Messrs. Jessurun & Wormser who to-day opened it as a first-class restaurant to be known as the Cafe Royal. The place looks very neat and clean and the taste displayed in fixing it up shows that the proprietors are old and experienced hands in the restaurant business.

The Gorge Road Church.

The new building of the Gorge Road church is beginning to assume proportions of a very handsome edifice, and when finished will be a decided ornament to that neighborhood. The choir of this congregation is not the least important in the city. Its ranks have recently been augmented by some first-class voices. The Sunday evening services are rendered especially attractive, musically, and are usually very largely attended.

The Police After Them.

Numerous complaints have been made lately of a Fort street brewery supplying beer by the bottle to boys of tender ages. The youngsters, for that is all they are, go off into sequestered places and there drink beer until they are drunk. The police have been notified and are taking active measures to bring the guilty parties to justice. A man that will supply young boys with beer by the bottle for the sake of a few bits should be severely punished.

Behring Sea Sealing.

The WEEKLY TIMES, published this morning, contains under one head the article on the sealing industry written for the London Times by a local correspondent. The article is one which will be of interest to anyone who desires to obtain facts on the history of the sealing business, and is written in an interesting way which makes its statistics readable matter. Other news of the day is embodied in the issue, which this week is a very interesting one.

A Sailor in Distress.

Robert P. Rotchford, an American sailor, is here from Yokohama, and applied at the Consulate for assistance. He was first mate of the ship W. W. Crapo, which was at Yokohama last February. It was then that Mr. Rotchford had the misfortune, while on duty, the break both legs. He was laid up in the hospital for a considerable period in consequence, but managed to come away on the last C.P.R. steamer. Consul Myers has sent him to his home in San Francisco.

Not Completely Burst.

Assistant Manager H. Jackson of the Puget Sound and Alaska Steamship Company, who is in the city says there is no truth in the rumor that his company is going to consolidate with the Union Pacific steamers. He says although several small companies have gone out of the pool the Puget Sound Association has not burst altogether. The P.S. & A. Company and the Union Pacific intend to comply with the articles of the association, knowing that it is for their own good.

News to Victorians.

An old adage says: "You must go from home to hear the news." The following item taken from the Seattle Telegraph, dated Victoria, Oct. 21st, would appear to make the adage applicable: "A city ordinance was passed recently making illegal the discharge of guns within the city limits. The other day Mayor Grant gave a special permit to Sir M. B. Begbie, Chief Justice, to shoot within the city limits, as he desired to hunt on certain lands. There is considerable adverse comment on the matter, as several people have been fined for the same offence."

Mr. Jas. A. Grant and Miss Isabella Manson were married at the residence of the bride's parents last evening by Rev. D. McRae. Both are members of the First Presbyterian choir, and the members of that body were present. The couple left this morning on a short honeymoon trip.

How to be Happy Though Married.

This question has long been argued and debated upon by the most learned men of the day, and books have been written upon the subject. Like everything else it is easy "when you know how." You have only to take home to your wife her reguiar pound of johnson's tea and happiness will reign around.

An Afternoon Wedding.

Rev. Father Nicolaye this afternoon tied the knot which binds for life Mr. Michael Powers, (the genial proprietor of that well-known refreshment resort, the Brown Jug) to Miss Tilda Faulkner. The affair was quite private, Mr. and Mrs. McKee acting as best man and bridesmaid respectively. The newly married pair will at once settle down to home life.

A Tobogganing Party.

A large party of ladies and gentlemen have engaged the Mount Tolmie toboggan slide for this evening and intend to go in for a jolly time. The well-known eastern sport will be doubly enjoyable, because none of the discomforts of cold will be experienced, and best of all, the toboggans climb to the top of the slide without the attention of the pleasure seekers, a mechanical contrivance to effect this having been perfected by Mr. T. Norquay who has charge of the slide. A good time is assured to those who will participate.

The Hack Stand.

There is a movement on foot to effect a change in the hack stand, and late events go to show that such a change is certainly necessary. To-day an accident was escaped something short of a miracle owing to the jam caused by the fact that a street car, a butcher's cart, an express wagon and a hack were all abreast at the same time, and another team was coming in an opposite direction. One of the rigs was crowded over to the side of the street and ran up on to the sidewalk narrowly escaping running over a lady. Surely it is time that this antiquated relic of an olden time should be done away with, and something be done to abate the trouble.

Japan Teas.

Mail reports from Japan report in substance that the exports this year will probably show an increase of two or three million pounds, reaching about 50 millions, but as the consumption of Japan teas in the United States and Canada still increases, the quantity will probably not be found excessive. The grades now principally shipping are common to good medium. The higher grades are practically finished, and arrivals from this time to the end of the season (estimated at 30,000 piculs) will consist chiefly of the lower grader. Quotations remain unchanged; the natives holding firmly to their previous line of valuation.—New York Commercial Bulletin.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

LIFE IN ALASKA.

The Sitka Postmistress Visits Seattle—First Ride in a Railroad Train.

[Seattle Telegraph.]

Miss Paulina Cohen, postmistress of Sitka, Alaska, who is a guest at the Arlington, has lived in that cold territory at the north for nearly 20 years. Her father, A. Cohen, is one of the earliest pioneers of Alaska, having settled there prior to the transfer of the territory from the Russian Government to the United States. He operates a large brewery, and is an influential citizen. Miss Cohen is a very charming lady and an exceedingly pleasant conversationalist. The reporter was astonished when she informed him that she would ride on a railroad train for the first time to-day.

"Sitka," she said, "has 1100 inhabitants, of whom 200 are whites, and these are for the most part government officials and people belonging to the navy.

"In coming past Mary Island, one of the first points you meet in the Alaskan possessions as you go north from British Columbia, I noticed that a schooner came out to the ship, and soon learned that the Government had established a port of entry there. Postal Inspector R. R. Monroe states that a postoffice has already been applied for at that point.

"The Alaskan port of entry used to be at Tongas, but the station there was abolished some years ago. The chief object is to prevent the smuggling of firearms and whiskey into the territory."

Just before Miss Cohen's departure from Sitka, news was received from the mines on Douglass Island to the effect that a new rich strike had been made. This was the old Treadwell mine, in which Senator Jones, of Nevada, and D. O. Mills, of San Francisco, were interested. The mine is now owned by a syndicate and 240 stamps are operated. The profits last year were $413,000. The new developments bid fair to occasion quite a mining excitement there.

One of the stories of Alaska that has never before appeared in any newspaper was for the first time related to a reporter by Miss Cohen.

One of the familiar eccentric characters of the southern coast is Michael Travers who is now known by the title of "the Duke of Japonsky." The latter name, comes from a small island near Sitka. Travers is well connected. His brother is one of the owners of the Boston Herald. Years ago Michael settled on the island of Japonsky, and there cultivated the soil and made himself a comfortable abode. He married an Indian woman, but her company was not congenial. He learned to value the wisdom of Tennyson when the titled poet sang "Better 50 years of Europe than a cycle of Cathay," and no more than half a dozen moons had looked pityingly down on the Japonsky paleface and his dusky bride than Michael Travers sought the divorce court and obtained a separation with as much facility as mismated couples experience in the nuptial bond-cutting business in King county.

Michael became a recluse. He visits Sitka once in a while for supplies, and always calls at the postoffice, bringing a large bouquet of flowers for Miss Cohen. He is a man of good appearance and his long brown hair, streaked with gray, flows down over his shoulders and makes him look something like a picture of an old-time sage or poet. In fact, he spends a great share of his time in writing verses, and he has whole stacks of "poems" in his cabin.

Recently the Government officials observed the value of this island as a naval powder storing point, and the United States authorities laid claim to the island. A small barracks will be constructed there and a powder magazine will be built. The Government easily settled with Michael Travers. They paid him $1000 down and made him a sort of caretaker of the island for the rest of his natural existence. This is the reason that Michael is dubbed the "Duke of Japonsky," and in his own estimation (for solitude has affected his mind) he is a bigger gun than Albert Guelph of Wales.

Miss Cohen is on her way to Portland, where she will spend her six weeks' vacation.

A horse hitched to a two wheeled rig caused quite a little excitement on lower Yates street this morning, for an animal of his size. He started by backing into a dray horse and starting him off and then turned his own rig upside down.

MUNN & CO. SCIENTIFIC AMERICAN AGENCY for PATENTS

Train Robbers Captured.

SAN ANTONIO, TEX., Oct. 22.—D. Ludlow, Pacific express agent in this city, received a dispatch last night from the agent at Langley, announcing that the capture of four of the Southern Pacific train robbers took place at the "7 D" ranch on Live Oak Creek, about 100 miles north of Langley, on Friday last. The capture was made by Capt. Jones and a posse. None of the robbers offered resistance except John Flint, who after a running fight of several miles committed suicide in preference to surrender. The other three robbers are James Langstein, Jack Wellington and a man whose name is not known. The robbers had about $800 when captured.

The Chilian Elections.

NEW YORK, Oct. 23.—The Herald's cable dispatch from Valparaiso this morning says that the total results of the present election show that the different parties combined under the name of Liberals have elected 55 deputies, while the Conservatives and Clericals have elected 35. One dictatorial deputy has also been elected. Prominent among these elected are Carlos Walker, Martinez, Pedro Montte and Ricardo L. Trumbull. The latter two are too well known in the United States, Montte as the representative of the Junta at Washington and Trumbull for his connection with the Itata affair.

Smallpox Scare in Trenton.

TRENTON, N.J., Oct. 23.—The smallpox scare in this city has led to legal complications. Antonio Guivera, the Italian who was arrested for resisting the health officers, was fined $25 and committed in default. The county solicitor, however, notified the jailer not to receive the prisoner in jail, nor in fact any of those coming from the infected neighborhood. The houses in which it is known the disease exists are closely watched, and the health officers are doing everything to prevent the disease from spreading.

A Lunatic's Painful Death.

NEW YORK, Oct. 22.—The Recorder this morning says that Isaac William Lore, 43 years old, formerly a broker and a member of the 7th regiment, met with a horrible death at the Bloomingdale asylum last Saturday. It is alleged that Mr. Lore during the temporary absence of his attendant plunged into a bath tub filled with boiling water and received injuries which caused his death. The asylum authorities, with the aid of the coroner, tried to keep the matter secret, even failing to inform the dead man's family of the cause of death.

An Insane Woman's Death.

SAN FRANCISCO, Oct. 22.—At Olema Mrs. Prendergast, wife of James A. Prendergast, was drowned in Tomales Bay yesterday afternoon. Mrs. Prendergast has been for years subject to spells of insanity, and at times would get beyond control. Yesterday she and her nurse went to take a drive. On the way she was taken with one of the spells, grabbed the lines from her attendant, applied the whip to the horses and drove down a steep declivity into the bay. Mrs. Prendergast was drowned, but the nurse was rescued. She is in a critical condition, however, having been injured in the descent.

Acquitted by the Jury.

SAN DIEGO, Oct. 22.—The trial of Wilson, another of the alleged deputy United States marshalls concerned in the killing of sailor Brown, of the Charleston, during the riot in the steamer at this city several months ago, has resulted in the jury bringing in a verdict of acquittal after being out twenty minutes. Breedlove was found guilty of manslaughter a few days ago, and a similar verdict was looked for by many people in this case.

Blew Out the Gas.

NEW YORK, Oct. 22.—Two unknown men, immigrants from Russia, were found dead in bed this morning on the top floor of a lodging house. They were asphyxiated, the gas having been blown out and left turned on. It is supposed to have been an accident and is attributed to the ignorance of the men. The men were apparently between 25 and 30 years of age.

A Chinese Case.

WASHINGTON, D. C., Oct. 22.—Acting Secretary Spaulding says that the treasury department will take no action in regard to the case of the two Chinamen released by Judge Deady, of Oregon, on habeas corpus proceedings. Judge Deady held that the departure of these men as cooks on a foreign vessel is not a departure from the United States within the meaning of the Chinese exclusion act.

Charged With False Pretences.

SAN FRANCISCO, Oct. 22.—Bamberger and Keamfer, proprietors of the Sonoro wine vaults, this city, have been indicted for obtaining goods on false pretences. They pleaded not guilty in Judge Wallace's court this morning and the case was continued for a week. The case will probably be a test one as to the status of the grand jury.

Another Roche Harbor Smuggler.

TACOMA, Oct. 22—Inspector Cobientz brought Edward Nelson, another of the Roche harbor smugglers, to this city. Nelson will have a hearing before United States Commissioner Ayers. He escaped during the raid on his alleged accomplices last Friday.

Not Yet Arrested.

SACRAMENTO, Oct. 22—Assemblyman Elmwood Bruner, who was indicted by the grand jury at San Francisco yesterday, is still in the city, and had not been arrested up to noon to-day.

YOUNG & BARTLETT.

Exploring Alaska.

SEATTLE, Oct. 22.—A second letter has been received in Seattle from Lieutenant E. J. Glave, who, with John Dalton, started out last spring to find a pack trail up into the interior of Alaska. Last summer word was received from Lieutenant Glave that he had accomplished this purpose, and thus for the first time opened the interior to trade and commerce. He has now returned to Pyramid Harbor, from which he writes: "Altogether we had a most successful journey, for we covered a lot of new territory hitherto unexplored. I have mapped out quite an interesting section of land, and we experienced all the usual incidents, strange and exciting, of a journey through a wild country. Our experiment with pack horses is destined to play an important part in Alaskan history. It proves a possible transport where none before existed, except the Indian carrier—a mode of conveyance upon which the solid development of a country could not be made. The inaccessibility of the interior of Alaska has barred out the miner and the prospector; but now the road is open, gold is said to be in those regions, and the search for the treasure can now be made. The United States and the Dominion Governments can now follow our footsteps and survey the land they claim; they can go in and fill in the big blank chart with the lakes and streams belonging there."

A St. Paul Defaulter.

ST. PAUL, Minn., Oct. 23.—Louis T. Wilde, teller of the St. Paul Trust Co., was found by the officers of the company this morning to be a defaulter in the sum of $5000. He is also largely in debt to merchants of the city. He is said to have been running with a fast set lately, and a large part of the money went for poker and wine. Wilde went on his regular vacation to the home of his parents at Lockport, N.Y., early in September, but has failed to return. The loss falls upon the American Surety Co., which was on Wilde's bond.

Disastrous Floods in Mexico.

CITY OF MEXICO, Oct. 22.—The San Juan and Papooshan rivers are rising rapidly and have overflowed their banks in many places. Several towns have been inundated, and there has also been great destruction of crops. Heavy rains have fallen in the state of Tobasco, and the city of San Juan. Bautista, the capital of the state, is in great danger.

Printers and Typothetæ.

CINCINNATI, Oct. 22.—The United Typothetæ of America, now in session here, to-day adopted a resolution endorsing the action of the Pittsburg Typothetæ in resisting the recent demands made by the Typographical Union of that city, and pledges its hearty support in every practical form. This action possibly involves a spread of the troubles now existing in Pittsburg and other cities.

Donald Notes.

DONALD, Oct. 13.—Wm. Simmons, who was discharged from the Donald lock-up, to-day, after taking too much fire water to celebrate his release after three months' captivity, trying to jump on a wagon, fell over and fractured two of his ribs. The provincial constable took him to the C.P.R. hospital.

Oct. 15.—Mr. Niblock, superintendent of the C.P.R., was in town to-night with an amateur troupe, giving an exhibition for the benefit of the hospital at Medicine Hat. It was a success financially.

Oct. 19.—Hon. Justice Walkem arrived from the West on No. 2 to-day and will stop in town for a few days. He holds Court of Revision on the 22nd inst. Constable Harold Redgrave arrested one M. Kilchine for assaulting J. M. Carrol, of Beaver, and cutting his head open with a bar of iron.

Oct. 20.—"Kilchine" was sentenced to-day to four months' hard labor for assault on J. M. Carroll.

THE SEAL QUESTION.

Prof. Elliott Unburdens Himself to a Cleveland Reporter.

The Cleveland Plaindealer, Oct. 12, says:—A copy of a New York Herald special dispatch was shown to Prof. Elliott yesterday afternoon, in which Special Agent Williams is reported to have said, apropos of Mr. Elliott's work, that "too much science and not enough common sense was the trouble with this seal question;" that while it was true that the seals were being rapidly run out, yet it was not due at all to the work of over-driving on the land, but wholly due to the pelagic or open water sealer. Mr. Elliott, in his report made last fall, declares that it is due to both land and water operations, and that the decrease is as much due to the over-driving as to the poaching, and that "the seal life candle is literally burning at both ends."

"You want to know what I think of this reputed assertion of Major Williams'. Well, in the first place he has not seen any driving on the islands this summer worthy of mention. The lessees were prohibited from driving, except to take the small number of 7500 seals for the subsistence and care of the natives. If Major Williams had witnessed the attempt of the lessees—the frantic, desperate attempt—made by them last year to get their 60,000 skins he would have known something about the subject that I object to, and describe in detail. Naturally, since, according to his own report, there has been no work of the kind done up there this year, he knows nothing. But if he had the least idea of making an investigation he would know that the Russians have twice reduced their Pribylof rookeries to the verge of ruin by this over-driving which I complain of, and which he thinks is so harmless because he don't know anything of it. When the Russians overdid the driving in 1817—'34 inclusive, the idea of open water sealing was not even thought of, much less practised, and the major will find that a study of the operations then shows that it was wholly the fault of overdriving and nothing else. Then, too, the driving was not as severe as it was under my eyes in 1890. The Russians never culled the herds as our people do, and this culling of the herd is what I especially point out as the chief factor of harm in the driving as carried out last year."

"Then Mr. Williams has not witnessed the work as you saw it done?"

"Certainly not; he could not, for no such work was undertaken. It was expressly forbidden, and it was a lucky thing for the seals that it was. He saw them leisurely driving which the call for a few thousand food seals warranted and nothing more."

"How about the Russian waters? Mr. Williams says that there is no poaching over there; that the Russians shoot."

"Again he blunders. He don't know that the Russians have never up to date interfered with a sealing schooner at work outside of the three-mile limit in the Behring Sea or the Okotsh Sea. I say that Major Williams or no one else can cite a single case of seizure or of shooting at a sealing schooner outside of the three-mile limit in the Russians waters of Behring Sea. I should think by this time he and others would understand so remarkable and plain a showing as that made by Russia in this matter. She has officially in 1867 and 1881 declared no jurisdiction in Behring Sea and the Okotsh outside of the three-mile limit. These orders are republished in the United States Treasury regulations (1882, by Secretary Folger), and Williams ought to understand his business.

"The Russians shoot at pirates as they land on the seal grounds of the Commander Islands or attempt to land, and have done no other shooting. We have done the same repeatedly on our islands."

"What do you think of the situation?"

"It is a very simple one—either have a close time during the breeding, extending over Behring Sea and into the North Pacific, down 100 miles south of the Aleutian chain and Kodiak Island, and revise the method of killing on land, or the end is at hand. Closing Behring Sea alone will not save these seals, not by any means."

"What does Major Williams mean by saying too much science and not enough common sense is the trouble?"

"Oh, I suppose he thinks he knows it all—a common failing of those who know very little. I will go further than the major. I will say that the chief trouble over all this seal business is the lack of common honesty in some quarters.

What Does It Mean?

"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations, taken according to dire tions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

Her Face Her Fortune,

Is commonly said of famous beauties. She who uses with artistic taste Wisdom's Famous Robertine has fortune in the possessing of a complexion to which nothing but the blush of the rose or the freshness of the lily can be compared. This preparation is just what it is claimed to be—the most delightful toilet article and only perfect beautifier known. Read the testimonials from famous artists, celebrated chemists and eminent physicians. D. E. Campbell, gent.

A Visit from Old Friends.

Almonte Gazette:—Mr. and Mrs. Wm. Templeman, of Victoria, B.C., with Miss Eva Thoburn, arrived in town Monday, and were warmly welcomed by their hosts of friends. It is seven years since the people of Almonte united in publicly saying adieu to Mr. Templeman, and this is the first time he has been here since. He wears an air of prosperity, and his appearance is a fine advertisement of the effects of British Columbia's grand climate. He is in the best of health, and tips the scale at 210 pounds! We are glad to learn that friend Templeman has, against strong opposition and in the face of many difficulties, made the Victoria TIMES a financial success. It is now one of the best papers in the Dominion, and to Mr. T. is due the credit of placing it in the front rank among Canadian dailies. He intended being here a month earlier, so as to take in the Almonte exhibition, but a libel suit brought against the TIMES by Hon. F. G. Vernon prevented the carrying out of his plan. Mr. Vernon (a member of the local government) was charged with favoritism in disposing of public lands, and with interpreting the land act in the interests of friends. He sued for $10,000 damages, and was awarded $450. Although the costs of the action fall on the TIMES, the province will reap the benefit, and a better method of administering the public lands will be the result; and those interested will not likely forget the paper that fought their battles. Mr. Templeman is firmly of the opinion that the several libel suits the TIMES has had to fight in the courts have been more of a benefit than a drawback to his paper. The Gazette extends a hearty welcome to its founder and former proprietor, and wishes him a pleasant and beneficial trip and a safe return home.

A Woman's Opinion.

"Frequent reference is made," says the October number of Wives and Daughters, "to the low moral tone of the people. But the reins of government have never been held by representatives of the people. They have always been in the control of the representatives of less than half the people. The general moral tone of more than one-half the people of Canada remains as it has always been—law-abiding, gospel abiding, home-loving and humanity-loving. But the greater half of humanity of which we speak is composed of only women, who have no more political importance than lunatics and paupers."

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 122 pounds, suffering buruing sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

SPORTING INTELLIGENCE.

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

THE TURF.

B. J. Treacy has sold Rudolph, by Fonso, out of Eva S., the winner of the St. Leger stakes at Louisville, Ky., last week, for $4,000. The sale was made after the race

Pierre Lorillard has engaged Tony Hamilton as first jockey for his stable in 1892, the contract having been signed on Oct 7. It is the evident intention of the master of Rancocas to get together a powerful stable for next season, and the well remembered cherry jacket, with black hoops, may be expected to again take its place among the foremost winning colors on the American turf.

Martha Wilkes, the property of L. D. Wiggins, of Bellingham, Mass., on Oct. 6, at the Rhode Island Horse Breeders' Association meeting, Providence, R.I., earned the distinction of being second to the fleet Sunol at a quarter mile, which she trotted in 33s., just half a second slower than the California mare.

Jockey Moore died at Latonia, Ky., Oct. 6, from pneumonia, resulting from a cold caught from the use of the sweat box in trying to reduce his weight. He had also ridden at the late fall meeting there.

At the Colorado State Fair, at Pueblo, on September 29th, during the progress of the 2.20 trot ing race, just after passing under the wire in the third heat, the horse Tramp S suddenly stopped, staggered up against the fence and fell over. He gasped a few minutes and was dead. He was owned by Mr. Leonard, of Denver. Mr. Leonard had recently refused $10,000 for the horse, holding his price at $25,000. Tramp S's record was 2.21. He was one of the finest bred stallions in the west.

Nelson says he is not satisfied with the defeat of his horse by Allerton. No, beaten men generally grumble, but there is little doubt that Williams will accommodate him with another match if he wants it.

Uncle Bob, the winner of the American Derby last year, fell and broke his nigh front leg at Garfield Park, Chicago, on Saturday. George Hawkins bought him this spring, paying in the neighborhood of $12,000 for him.

Allerton, 2.09¼, is a dark bay, stands 15.3, with white ankles behind, and weighs about 1,025 pounds. is 5 years old, and sired by Jay Bird, dam, Gussie Wilkes, by Mambrino Boy.

STARTING BY ELECTRICITY.

The London Field contains the following account of an advance flag for starting horses, to be operated by electricity, which is an English invention: "The starting flag is to be placed outside the rails and in view of all the jockeys. As soon as the starter thinks that the moment has arrived for him to start the horses, he will press a knob of the apparatus and the flag will drop. The starter may either stand on the ground or be in a vehicle, or on a platform. It is claimed for this invention that no jockey would be favored by position, so far as getting a better sight of the flag is concerned. It would, of course, be necessary to have the apparatus fixed at each of the starting points. A permanent wire runs underground, and on race days it will only be necessary to connect the flag handle with the post, and, on the starter taking up his position, to connect the wire from his battery with the permanent one underground. Should this invention be found to answer, the starter will have the flag under his own immediate control."

Ten thousand pounds to £250 has been accepted about Theosophist and Theophilus for the Czarewitch and Cambridgeshire. Mr. Joe Thompson laid $168,000 to $12,000 against Ermak for the Czarewitch, and the way the horse performed the other day at Paris, makes it look a sure thing for Joseph.

Fred Webb rode Signorina to victory in the Lancashire Plate, and her owner, Chevalier Ginistelli, presented him with $5000, a fairly good remuneration for a few minutes' work. A coincidence noted by some was that Signorina was No. 1 on the card, she was also No. 1 on the draw, and she finished No. 1., all of which was very pleasant for her backers.

DIRECT BEATS HAL POINTER.

NASHVILLE, Tenn., Oct. 21.—Thousands of broken Tennessee hearts and thousands of empty pocketbooks were carried away from Cumberland Park this evening. Direct, that matchless California pacer, had showed Hal Pointer his heels with ease in three straight heats. The time of the second heat was the best ever made in a race in harness, lowering Pointer's record half a second. In the first Pointer had the pole and held it until the quarter, when Direct who had been on almost even terms with him from the start, made a magnificent spurt and pulled away. The second heat saw Direct at the pole, and he held it throughout. The best Pointer could do was to stay abreast up to the half mile, when Direct gradually drew away. The last heat was a repetition of the others. The time by quarters was: First heat, :32¾, 1:05¼, 1:38¾, 2:10; second heat, :32¼, 1:04¼, 1:36¾, 2:09¼; third heat, :32½, 1:05, 1:38½, 2:11.

It was believed by many that Direct could have gone in 2:08 in the second heat had Pointer pressed him more closely. Pointer was a big favorite in pools in the first heat, selling $100 against $30 for Direct. The second heat was not materially changed, but the third found Direct selling at $100 against $50 for Pointer.

LACROSSE.

THE FIASCO AT MONTREAL.

The present lacrosse season in Montreal has been a most unsatisfactory one, and the disgraceful squabble that characterized the proposed match between the Shamrocks and Cornwalls on Saturday afternoon week last was the one straw necessary to damn the whole season.

Five thousand people had paid their money to see the match, and they were vouchsafed no return except a lot of unseemly squabbling on the field between the captains of the two teams. They wrangled and disputed for over an hour, and finally the Cornwalls, after repeated mock attempts, marched off the grounds amidst the hoots and yells of the crowd. The whole business was most disreputable, and though the fellows from up country were accorded most of the blame by those who professed to know all about it, the general public pronounced it six of one and half-a-dozen of the other. It was a worthy ending to a most unsatisfactory season. At a meeting of the committee of the Shamrock Club it was decided to divide the gate receipts, about $400, equally between the Montreal General and Notre Dame hospitals.

The match to be played at the Driving Park to-morrow afternoon between the Vancouver and Westminster team will be one of the most keenly contested games ever played in the Province. It decides which city is to hold the championship of British Columbia, and the admirers of each club have been doing their best to strengthen their teams and make a last grand effort to win the title of champions. The executive of the Victoria Club having got the Mainlanders to play here, intend to make it comfortable for them, and they have been putting the grounds in first-class condition, so that rain or shine they will have a good square game. The grounds are level, and there is no choice of goals. The street car company will run extra cars to accommodate those wishing to see the game. The ball will be faced at 2:30 sharp.

The band of H.M.S. Warspite will play at the lacrosse match at the Driving Park to-morrow afternoon. Music at 2 o'clock.

BASEBALL.

There is talk of two champion Boston clubs coming together in San Francisco this winter.

Curved balls were used less during the past season than at any time since their discovery.

There was not a single tie game in the Pacific Northwest League during the season of 1891.

Mike Kelly has a record of playing with two pennant winning teams in one season—both of them of Boston.

Harry Simpson, the baseball player who went to Australia with the Spalding tourists and remained there to build up the game, died recently at Sydney.

Lord Hawk, the English cricketer, does not see that there is very much in baseball. Perhaps my lord would if he had to pay the salaries of some of the league teams.

The championship race of the National League for 1891 was the most remarkable in its history. The difference between the percentage of the champions and the tail-enders was but .223.

It has been pretty clearly demonstrated by practical experience in pitching department during the past season that with a pitcher who combines great speed with thorough command of the ball, the best point to play in his position is to put the ball over the plate. Curves are worse than useless unless you can command that style of delivery enough to curve the ball over the plate. If you cannot be sure of your curves, in this reipect, send them in swift and straight over the base, as Hutchinson does. Of course to be able to control your curves so as to put them over the plate, is the very acme of pitching skill but were is the pitcher who can? Rusie comes nearest to doing it.

THE OAR.

SEARLE'S COLORS.

Mr. Ed. Mallandaine, jr., the secretary of the J.B.A.A., has attended to the framing of the colors worn by Searle, the Australian oarsman, when the world's championship was won by him, and lately presented to the association by Mr. Phil Robinson. The trophy is a silk handkerchief, checked in light and sky blue. It is a relic which is highly appreciated by the James Bay boys.

MISCELLANEOUS.

PAPER CHASE.

To-morrow's meet will be at Saddcona. The hares, Dr. Duncan and Mr. Pemoerton, will be started at a quarter to three p.m. and be given only 10 minutes start. The hounds therefore lookout for a sharp run.
